<b>Office Action Summary</b>	<b>Application No.</b> 10/749,450	<b>Applicant(s)</b> DAI ET AL.	
	<b>Examiner</b> Peter G. O'Sullivan	<b>Art Unit</b> 1621	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1621

Claims 1-20 are pending in this application which should be reviewed for errors. In response to the requirement for the election of a single disclosed species, applicants' elected the species with silver, Tf<sub>2</sub>N and n-propylamine. Applicants' compounds wherein the ligand is Tf<sub>2</sub>N are examined therewith with all other compounds held withdrawn.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for metals, ligands, and anions, does not reasonably provide enablement for all metals, ligands and anions. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims. Applicants' specification does not disclose how to make and /or use liquid compounds from all metals ligand and anions, for example one containing strontium, polyaminoacid ligand and perchlorate nor does it disclose how to make or use non-liquid compounds. The art discloses many attempts to make compounds useful as electrolytes, for example, wherein the products have the appropriate characteristics for the utility. Undue experimentation should not be required, for example, to determine if compounds of the scope of applicants' claims are liquid. Applicants' claim one is so broad it reads on methanolic or ethanolic sodium hydroxide with sodium being the metal ion, OH<sup>-</sup> being the conjugate anion and polar ethanol or methanol being the organic ligands.

Art Unit: 1621

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 8, 9, 11, 13, 14-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Armand, US 5,256,821, or Sakaguchi et al., US 5,723,664, (not 13). Armand disclose processes for making sulfonylimides (s. the examples). In example 12, for example,  $\text{Ag}(\text{CF}_3\text{SO}_2)_2\text{N}$  is in an acetonitrile solution. Sakaguchi et al. disclose  $\text{K}+(\text{CF}_3\text{SO}_2)_2\text{N}$  in acetonitrile and other examples (s. e.g. example 6).

No claim is allowed.
